BC Children's Hospital (BCCH) cares for the province’s most acutely ill or injured children and youth, provides developmental and rehabilitation services to children and youth throughout BC, and offers a broad range of health services. Sunny Hill Health Centre for Children (SHHC), a leading provincial facility offering specialized services to children and youth with developmental disabilities from birth to age 19, works collaboratively with BCCH. SHHC focuses on the child and their family while supporting health care professionals in their community.

BCCH also operates a wide number of specialized health programs, is a leading acute care teaching facility, and conducts research to advance health and care through the Child and Family Research Institute and in partnership with the University of British Columbia.

BCCH is an agency of the Provincial Health Services Authority (PHSA), which plans, manages and evaluates selected specialty and province-wide health care services across BC. PHSA embodies values that reflect a commitment to excellence. These include: Patients first • Best value • Results matter • Excellence through knowledge • Open to possibilities.

Developmental Pediatrician - Neuromotor Disorders
BC Children’s Hospital/Sunny Hill Health Centre for Children
University of British Columbia

An outstanding opportunity is available to join the Division of Developmental Pediatrics at BC Children’s Hospital/Sunny Hill Health Centre for Children and the University of British Columbia and take a leadership role as a clinician in the area of neuromotor disabilities.

The Child Development and Rehabilitation Program at Sunny Hill is a provincial resource providing consultation and community support for the management of children with disabilities. As an academic medical leader, you will be expected to work with the inter-disciplinary team and take a leadership role in developing provincially focused evidence-based services to children with neuromotor disabilities including outpatient and inpatient care and rehabilitation for children with cerebral palsy and traumatic brain injury. This includes initiation and support of clinical and health services research, and quality improvement activities.

The Division has twelve faculty members and works within a program management model with excellent inter-professional collaborative...
opportunities. The Division has strong research and education programs and has a Royal College approved training program in Developmental Pediatrics.

The successful candidate will have a fellowship in Pediatrics from the Royal College of Physicians and Surgeons of Canada and subspecialty training and certification in Developmental Pediatrics (FRCPC) or equivalent. The successful candidate must be eligible to obtain a specialist’s license to practice in British Columbia.

The successful candidate will be appointed (rank commensurate with experience) within the Department of Pediatrics and participate in clinical care, teaching, clinical research and quality improvement. The anticipated start date is September 1, 2013. Salary will be commensurate with qualifications and experience.

Qualified individuals should submit their most current CV; covering letter of interest; and the names, academic rank, and contact information of four referees before May 31, 2013 to:

Dr. Nancy Lanphear  
Head, Division of Developmental Pediatrics  
BC Children's Hospital/Sunny Hill Health Centre for Children  
Email: nlanphear@cw.bc.ca

BCCH and UBC are committed to employment equity and hire on the basis of merit. We encourage applications from all qualified individuals, including Aboriginal peoples, persons with disabilities, and members of visible minorities. In accordance with Canada Immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada.
